For innovative entrepreneurship
with a Covid Solution

World Smart City Expo Award

For our digital twin solution at
Living Lab Scheveningen

Sustainable & Smart Mobility

With key players we develop analytics for real-time and long-term data analysis for sustainable mobility, specialized in pedestrian and bicycle flows.

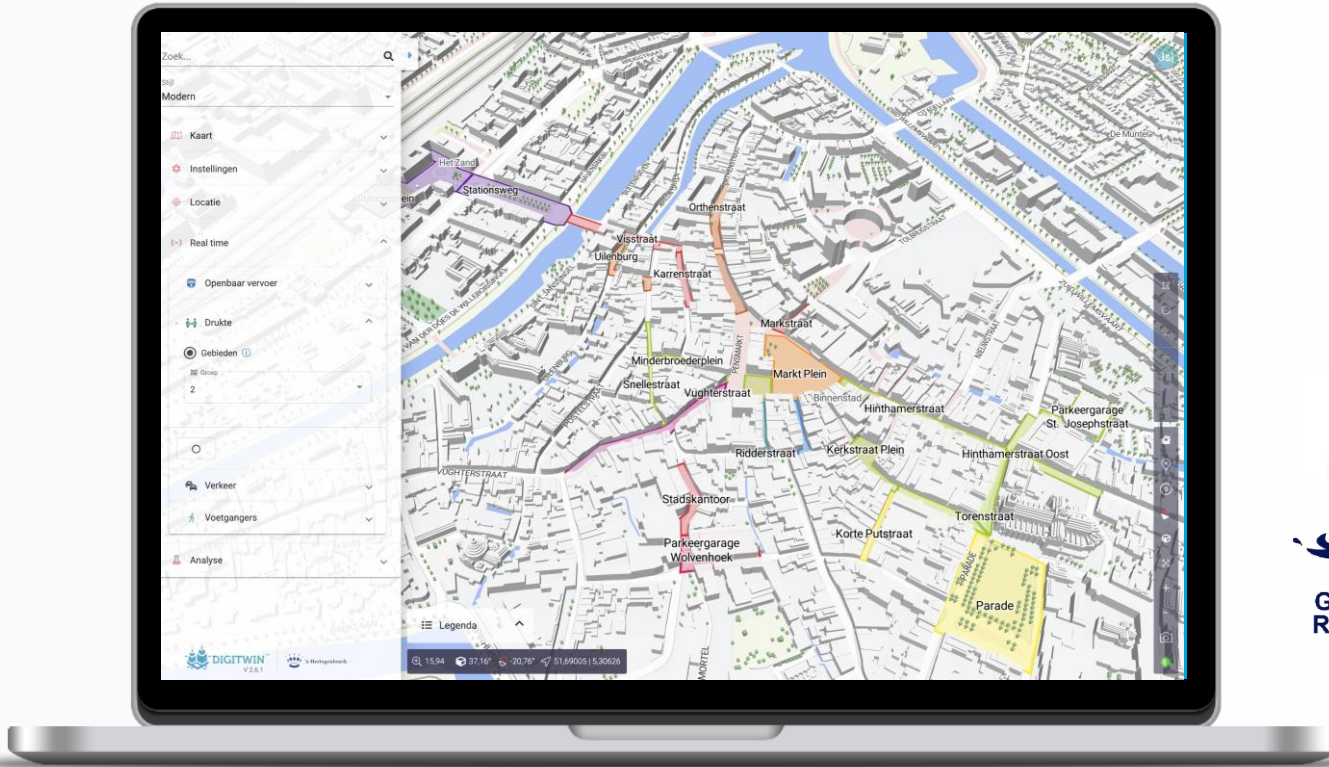

Public Safety

With the safety authorities we develop state of the art data insights into public safety measures, specialized in location intelligence, real-time data and evacuation modelling.

Rijkswaterstaat
Ministerie van Infrastructuur en Milieu

Crowd & Visitor Management

For crowd safety and visitor engagement we offer nation-wide off the shelf solutions which are now expanded with EU and national innovation budgets.

'S-GRAVENHAGE

Successful technical test

Scaling up with authorities

- ✓ Positive “eye opening” feedback from safety authorities
- ✓ Adds value to current “speech & video” approach
- ✓ No incidents during event
- ✓ Lessons learned for next events
